

# Serial PCI Card

**Model**  
154475

## Add two serial ports with fewer conflicts.

Compatible with most RS-232 peripherals, the MANHATTAN® Serial PCI Card with two external DB9 ports is an ideal solution for attaching two serial devices — modems, barcode scanners, printers and more — through a single PCI card. Its two high-speed 16550 UART serial DB9 Com ports fully support PCI IRQ sharing even if accessed simultaneously to help save valuable resources for other expansion cards.

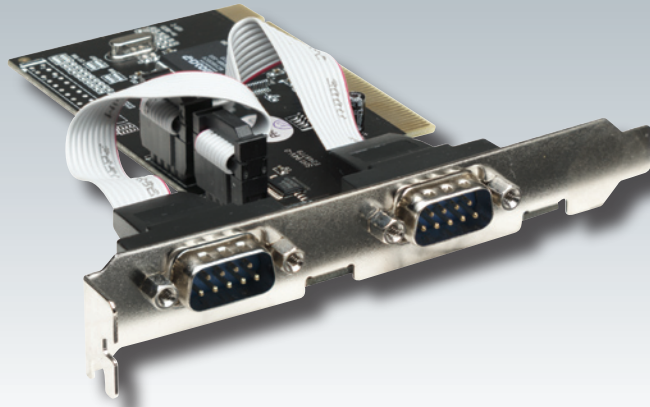

### Easy Installation

Windows 2000/XP/Server 2003/Vista 32/64-bit compatibility, Plug and Play capability and automatic IRQ and IO address selection make installation easy to help avoid configuration conflicts with other devices.

### Lifetime Warranty

Strict manufacturing standards ensure the highest quality in all MANHATTAN products. All items carry a full Lifetime Warranty — the strongest quality commitment anyone can make.
