Create a computing platform that balances cost, performance and compatibility.

PCI Express-enabled desktop computers can take full advantage of high-speed and isochronous communications that FireWire 400 offers with the MANHATTAN® FireWire 400 PCI Express Card. Easily installed, it adds two FireWire 400 ports to connect data storage, digital media and other FireWire peripheral devices.

Fast Data Transfer
The MANHATTAN FireWire 400 PCI Express Card achieves data transfer rates of 400, 200 and 100 Mbps, and supports a total throughput of 2.5 Gbps. Compliance with IEEE 1394a (FireWire 400) and PCI Express 1.0a specifications ensures that most PCI Express Card-equipped desktops and connected FireWire devices can operate at peak performance.
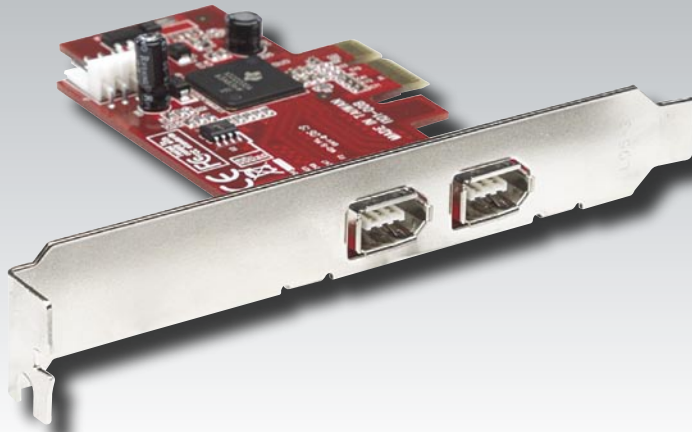

Simple Installation
The MANHATTAN FireWire 400 PCI Express Card fits PCI Express x1, x2, x4, x8 and x16 lane buses, and its regular and low-profile brackets enable a quick and easy installation.

Lifetime Warranty
Strict manufacturing standards ensure the highest quality in all MANHATTAN products. All items carry a full Lifetime Warranty — the strongest quality commitment anyone can make.
