

# NUMERIC KEYPAD USER MANUAL

MODEL 176354

  
**MANHATTAN**

MAN-176354-UM-0507-02

# INTRODUCTION

Thank you for purchasing the MANHATTAN® Numeric Keypad, Model 176354. With its convenient design, this device enhances any notebook computing experience, especially when inputting important numeric data.

The full-size 19-key layout and scissor-style (X-structure) key switch technology help reduce typing noise, improve response and provide low-profile keystrokes for fast and accurate data entry. The handy backspace key allows swift corrections, and the asynchronous number lock function keeps this mode independent of the computer's keyboard so you can simultaneously input letters from the computer's keyboard and input numeric data from the keypad.

Plus, as with all MANHATTAN devices, it comes with a Lifetime Warranty.

## INSTALLATION/OPERATION

1. Plug the USB cable into the USB port on the computer.
2. Activate the Number Lock function by pressing the "Num Lock" key. The LED will light. **NOTE:** The factory default is set with "Num Lock" activated.

3. When “Number Lock” is in use, the keys are defined as in Figure 1 below.
4. When “Number Lock” is in not use, the keys are defined as in Figure 2 below.

Num Lock	/	*	BkSp
7	8	9	-
4	5	6	+
1	2	3	Enter
0	00	.
