

3-in-1 Numeric Keypad

Special key instantly accesses extra functions and one-touch shortcuts

Model
177399

Fast, accurate numeric data entry combines navigation and shortcut commands for greater efficiency.

Fully integrated with numeric keypad, calculator and shortcut functions, the MANHATTAN® 3-in-1 Numeric Keypad is a versatile time-saver that includes a side-mount key that instantly activates one-touch access to frequent navigation, edit and view shortcuts to help improve productivity with Microsoft Office and other popular applications.

More Than a Numeric Keypad

Ideal for spreadsheet, accounting, or financial applications, the MANHATTAN 3-in-1 Numeric Keypad with 21 full-sized keys combines the benefits of an external numeric keypad, 12-digit calculator and special command panel in a format optimal for mobile professionals. In addition to standard calculating functions, the unique side-mount key in PC Lock or PC modes activates special mathematical and frequently-used Microsoft Office shortcuts. Using only a few keystrokes, calculations can be directly sent to active documents, spreadsheets and other files. The asynchronous number lock function keeps its number-lock mode independent of the computer's keyboard giving users the ability to simultaneously input letters from the computer keyboard and input numeric data from the keypad.

Easy to Use and Install

Compatible with USB equipped computers, its USB connection, Plug-and-Play installation without special software or drivers and hot-swap capability make it easy to pack, travel and use almost anywhere. With dual power, it can be used as a battery-powered, stand-alone calculator or connected with the USB detachable cable for full, 3-in-1 functionality.

Lifetime Warranty

Strict manufacturing standards ensure the highest quality in all MANHATTAN products. All items carry a full Lifetime Warranty — the strongest quality commitment anyone can make.
