Professional Video Splitter

8-Port, VGA, SVGA, MultiSync

Model
207355

Easily distribute a single high-definition signal to multiple displays.

The MANHATTAN® Professional Video Splitter with built-in booster streams a single VGA signal from a personal computer or other VGA-equipped source to up to eight displays. Ideal for trade shows, classrooms, video conferencing and presentations and retail applications, the MANHATTAN Professional Video Splitter is a good choice for splitting and distributing a signal to multiple displays when source equipment is remotely stored in a secured room or cabinet. Cascade multiple units up to three levels to output VGA signals to additional displays in widely distributed applications. The gold-plated contacts and fully shielded metal case ensure reliable signal transmission with less degradation.

Lifetime Warranty
Strict manufacturing standards ensure the highest quality in all MANHATTAN products. All items carry a full Lifetime Warranty — the strongest quality commitment anyone can make.
