

SATA Power Cable

4 Pin to 15 Pin, 16 cm (6.3 in.)

Model
342766

A connection correction to keep you up to speed.

Power needs are constantly changing. SATA and Molex connections always seem to have too many or too few pins for each user's needs. MANHATTAN® returns the flexibility to the builder: If there is an additional 4-pin power connection, you can convert it easily to a SATA 15-pin power for use with other connections. MANHATTAN uses exacting standards in our cables. This means far more reliability, less downtime and less cost in replacement.

Lifetime Warranty

Strict manufacturing standards ensure the highest quality in all MANHATTAN products. All items carry a full Lifetime Warranty — the strongest quality commitment anyone can make.

Model
342766

Features

- Converts a 4-pin Molex power connection to a 15-pin SATA power connection
- Helps create additional power connections from existing sources
- Gold-plated SATA connector
